

NOMATEN

Centre of Excellence in Multifunctional Materials for Industrial and Medical Applications

The **NOMATEN Centre of Excellence** vision is to create in Poland a new research organization in which **international world-class** research teams will design, develop and assess **innovative multifunctional materials** combining advanced structural and functional properties – for **industrial and medical applications**.

Novel high-temperature, corrosion and radiation resistant materials for industrial applications

Novel radiopharmaceutical materials for medical applications

National Centre for Nuclear Research

Commissariat à l'Énergie Atomique
et aux Énergies Alternatives

Teknologian Tutkimuskeskus VTT

Narodowe Centrum Badań i Rozwoju

Grant Agreement number:

763604 – NOMATEN – H2020-WIDESPREAD-2016-2017/H2020-WIDESPREAD-04-2017-TeamingPhase1

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 763604.
